Stand and Pray 19 x 29 in. POSTER. Print, Cut edges, and tape to a 20in x 30in Foam-core board that can be had for $1 at "Dollar Tree" or "Dollar General".   Then cover the whole sign with Clear 2in packing tape. Start clear tape across bottom, lightly mark top tape edge near sides of poster to make it easier to see where the next tape layer goes. Over lap each tape layer about ¼ inch and extend tape about ¾ inch past poster edge to wrap around to other side. Rub each overlap with your fingernail to make a good watertight seal. The back side also needs to be protected, So I put another sign on that side also.
